

# DEFEND *Teachers'* with *Tina* *Retirement* & *Ray*

**VOTE  
NOV. 4!**

CORE-supported Pension Trustees have led the Chicago Teachers Pension Fund to: expose fund managers with links to charter proliferation and anti-pension political activity, cut ties with Northern Trust - who had invested your retirement in risky securities like Lehman Brothers (costing the Fund \$87 million) and fight SB 512 - the bill that would undermine the unity and security of our Fund.

Now HB 3827 seeks to hand the Chicago Teachers Pension Fund over to the mayor - with a Board where he appoints a majority and less than half are elected by those with a stake in the Fund.
