

The Assault on Public Education

CORE member and Professor William Watkins brings together some of the nation's leading scholars and activists, including Pauline Lipman, Ken Saltman, and Alfie Kohn, to explore and critique the effects of market-based policy on public-school reform in his new book, *The Assault on Public Education: Confronting the Politics of Corporate School Reform*. CORE is proud to sponsor a Book Party where you will have an opportunity to hear from Dr. Watkins and, if you desire, to buy signed copies of his book. The book is intended to serve as an organizing tool for supporters of genuine public education. It features an extensive critique of how corporations influence universal public education, an explanation of how wealth forges public policy, and a case study of the public school system in New Orleans.
